CET EQUINE SPAS

Designed from the Horse out

The comprehensive range of CET Equine Spas are manufactured from the highest quality marine grade stainless steel which combines durability with strength and a pleasing appearance.

Particular attention has been paid to the necessity for hygiene and importantly, the safety of both horse and operator.

WHAT HYDROTHERAPY TREATS:

- Tendon and Ligament Injuries
- Laminitis or Founder
- Sore Shins
- Joint Conditions
- Poor Hoof Growth
- Wind Galls or Puff Balls
- Lacerations and Soft Tissue damage
- General Soreness and Stiffness
- Post Operative Complications

PREVENTATIVE SESSIONS:

Pre and post competition hydrotherapy sessions help lower the risk of injury.
